

MEGANITE[®]

Acrylic Solid Surface

RESIDENTIAL

Homeowners want a great look at an affordable price. They also want materials that are resilient and don't quickly outdate their interior décor. Some homeowners make sustainability and healthy living a priority while others want products that are easy to maintain. Today, residential design is less about keeping up with the latest fad and more about designing a comfortable space that suits your family and lifestyle. It is about being different, timeless and simplistic. And what could be more timeless than solid surface?

MEGANITE has all of these characteristics and more – a sanitary, durable, affordable, easy to maintain product that has endless color, texture and edge options. It is a classic choice with sustainable properties that supports a healthy home, a product that stands the test of time.

MEGANITE. A Solid Partner.

Why MEGANITE® for your home?

There are many reasons to choose Meganite beyond our high quality and affordable price.
