# 10 Reasons to Choose Meganite for Healthcare

- 1 70 Standard Colors with a Non-Porous Surface and Bonded Seams**

Unlike laminate, quartz and engineered stone, Meganite's non-porous surface and bonded seams prohibit the growth of mold and mildew while preventing the spread of bacteria.
- 2 AIA Preferred Material for Healthcare**

Meganite surfacing meets majority recommendations in the "Guidelines for Design and Construction of Healthcare Facilities" by the American Institute of Architects. Specify it today.
- 3 Over 90 Major Healthcare Projects in North America**

Meganite is a proven success in major healthcare facilities. Some recent projects include: Yale Hospital in New Haven, CT; Children's Memorial Hospital in Chicago, IL; Albert Einstein Medical Center in Philadelphia, PA; University of Tennessee Medical Center in Memphis, TN.
- 4 Certified by Major Third Party Standards and Codes**

Meganite is certified by the same agencies and to the same standards as other major brands. Key certifications for healthcare are: Food Safety (NSF-51), Class 1A for Flame and Smoke (ASTME-84), Low VOC (GreenGuard Indoor Air Quality, GreenGuard Children and School) and Certified Recycled Content (SCS Global).
- 5 Meganite Recycled Series: 18 Popular Colors + Custom Colors & Sizes**

Meganite Recycled Series features 18 popular commercial colors. We also offer custom color and non-standard size sheets. All Recycled products have a minimum of 6% pre-consumer recycled content and may contribute to LEED points.
- 6 Affordable Custom Color Matching with Low Minimum Order Quantities**

Match a color or create your own solid surface color with low MOQ. This is great for small and large size commercial projects, corporate colors, and national projects. This is a proven service since 1999.
- 7 Custom Sizes Help to Maximize Resources and Reduce Costs**

Our custom size program has helped many users reduce labor hours and product waste. Meganite sheets can be ordered in widths up to 60" and thickness from 1/4" to 30 mm. No other solid surface manufacturer offers the option of creating custom sizes at the manufacturing level.
- 8 10-Year Limited Warranty + A Durable and Easy to Maintain Product**

Meganite stands up in high usage environments. And for most scratches, buffing and light sanding can bring Meganite back to like-new conditions. Meganite is backed by a 10- year limited product warranty.
- 9 Meganite, Inc. - A One-Stop Shop - Since 1976**

Meganite, Inc. has nearly four decades of production and R&D experience in solid surface and related materials. Nearly every aspect of producing solid surface is done in our factories. This vertical integration means tight quality control and consistent lead-time.
- 10 An Experienced and Dedicated Distribution Network**

A good material supplier is essential to your project's success. Our North American distributors have a combine of over 250 years experience. See back cover for contact information.

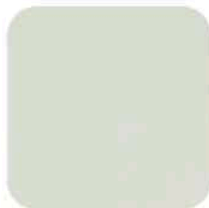

*"We are very happy with the performance and aesthetics' of the product."*

*Wellspan Health System Facilities Group*

*"I have specified Meganite on numerous projects because of the variety of colors and patterns, durability and ease of maintenance."*

*Floss McGrady, AAHID, EDAC  
Principal, Senior Interior Designer*

### Work Stations

Create a warm, ergonomic, and hygienic workspace.

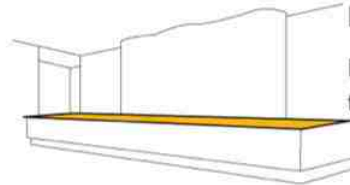

### Wainscoting

Cover hallways with a uniform looking and easy-to-clean wainscoting.

### Food Preparation Area

Meganite is NSF certified for Food Equipment.

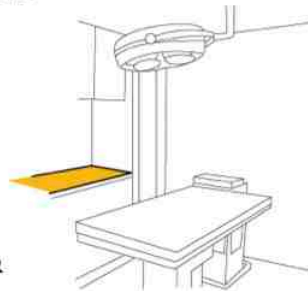

### Public Areas

Meganite is ideal for high traffic environments.

### Lavatory

Meganite is an easily sanitized surface with complementary vanity bowls available.

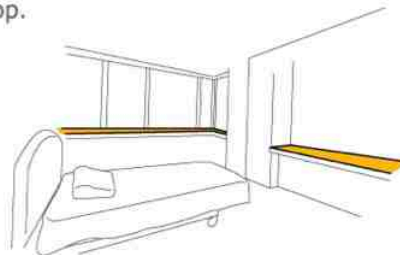

### Operation Room

Make it easy to keep OR rooms hygienic with a non-porous surface.

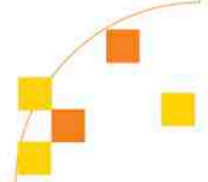

### Shower Wall & Vanity Top

Apply 1/4" Meganite for shower walls with matching 1/2" vanity top.

### Patient Room

Feel comfortable with a GreenGuard Indoor Air Quality material in patient rooms.

## Meganite Recycled Series

All colors in the series are SCS Global certified with a minimum of 6% pre-consumer recycled content and they may contribute to LEED points.

### 18 Standard Colors

The 18 standard colors are often selected by architects, specifiers and designer. This timeless collection is chosen from our most popular commercial offerings.

### Custom Color Program

Most Meganite colors can be made with recycled content. Or you can color match a non-Meganite color with recycled content.\*

### Custom Size Program

Reduce scrap, labor hour, and cost with custom size recycled content sheets. This program is great for fixed dimension application such as wainscoting, fixed-size countertops, stall dividers, and etc.\*
